

Annual Invasive Species Forum

Financial Partnership Opportunities

About the Invasive Species Forum

The annual Invasive Species Forum provides an opportunity to share progress on invasive species developments, actions, and initiatives, and to identify opportunities for collaboration. Attendees will join the event virtually to learn from keynote speakers, leaders from government, Indigenous communities, conservation groups, and private sector representatives.

Forum attendees mainly consist of organizations and agencies working on invasive species in Canada, neighbouring US states, and beyond. This includes provincial/state and federal government, Indigenous communities, municipalities, non-profit organizations, conservation authorities, and industry, as well as youth and students.

Forum Partners will have the opportunity to increase awareness about their organization with Forum attendees and the larger Invasive Species Centre (ISC) network.

Advancing Community Action

February 18 - 20, 2025

Forum Partnership Exposure by the Numbers

1,000+ total attendees at the 2024 Invasive Species Forum

23,000+ social media followers across Invasive Species Centre platforms

5,700+ visits to the event webpage during the 2024 event promotion period (December-February)

We are grateful for your valuable support of the Invasive Species Forum which helps to offset costs for conference organization and allows us to maintain affordable registration fees to encourage broad participation.
